What are the risks of investing?

Risk indicator for the GBP Growth Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the period of 1 October 2019 to 30 September 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

Annual Returns

This shows the fund return after fund charges and tax for each year ending 31 March since the Fund started. The last bar shows the average annual return since the Fund started, up to 30 September 2024.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 31 March 2024 these were:

	% of net asset value
Total fund charges	1.11%
Which are made up of:	
Total management and administration charges	1.11%
Including:	
Manager's basic fee	0.91%
Other management and administration charges	0.20%
Total performance-based fees*	0.00%
Other charges	Dollar amount per investor
	£0.00

^{*} There are no performance fees charged by the Fund.

All fees are GST inclusive (if applicable).

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from funds). See the PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Ben had £10,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of £1,908 (that is 19.08% of his initial £10,000). Ben also paid £0 in other charges. This gives Ben a total return after tax of £1,773 for the year.

Currency hedging

The base currency of the fund is Great British Pounds and the base currency of the underlying global funds that provide exposure to international fixed interest and international equities is United States Dollars. No currency hedging is performed at the fund level and the fund is not hedged to New Zealand Dollars. The following foreign currency exposure targets will apply to international assets:

- International fixed interest 100% hedged to Great British Pounds.
- International equities 100% unhedged to Great British Pounds.

The currency hedging is passive, meaning the investment manager of the underlying funds target the benchmark hedging level, although actual hedging may differ from this, due to cash flow and market movements.

Additional information about currency hedging is available in the 'SIPO' on the 'Scheme Register' at disclose-register.companiesoffice.govt.nz (search for 'Garrison Bridge Superannuation Scheme').
